

A Message from the Greenway Leadership Council:

Thanks to all who attended and participated in the January 13th GLC meeting. The “packed agenda” for our meeting was a reminder of the many aspects of the Conservancy, its challenges, the progress that has been made and important decisions and actions for the coming year.

As we plan our agendas for 2010, we are asking both the public and our GLC members to help us drive our agenda that will form the basis for our focus and actions in the coming year. This in turn will frame the work of the GLC this year in public outreach, meetings and further dialogue with the Conservancy. To do this, we request the following:

- What specific aspects of the Greenway should be a focus for the GLC in 2010?
- What will make the Greenway a “success” in your mind as a public park?
- What specific information would you like to see that will measure the success of the Greenway?

In order to move this forward in a thoughtful and meaningful way, we would like your response by January 22 so that we can plan the year ahead in setting our goals and actions. Please respond directly to the Conservancy by e-mail at info@rosekennedygreenway.org. Thank you in advance for your input and your interest in the Greenway.
